# Henrique Reis Neves

Software Developer

São José dos Campos, São Paulo, Brazil | +55 12 99710-9909 | henriquereisneves@gmail.com | LinkedIn

## Summary

Software Developer focused on creating scalable, high-performance backend and full-stack solutions. Solid experience in the Java ecosystem (including Spring Boot), modern front-end technologies (React, Node.js, HTML, CSS, JavaScript), and developing digital platforms using Adobe Experience Manager (AEM). With international experience and a proactive mindset, I aim to contribute to innovative projects involving large-scale systems, event-driven architectures, and cloud technologies.

## EDUCATION

### Centro Universitário ETEP, São José dos Campos, Brazil (2023 - 2026)
Software Engineering

### Langara College, Vancouver BC, Canada (2018 - 2022)
Associate of Science Degree in Computer Science

### Universidade Estadual Paulista (UNESP), Guaratinguetá, Brazil (2017 - 2018)
Mechanical Engineering

## WORKING EXPERIENCES

### Webjump (Jan 2025 - Present)
Software Developer

Main responsibilities and activities:

- Develop and optimize software solutions and digital experiences using Adobe Experience Manager (AEM), Adobe Edge, and Adobe Learning Manager.
- Full-stack development experience implementing and maintaining interactive and responsive applications using Java, HTML, CSS, JavaScript, React, and Node.js.
- Collaborate with cross-functional teams to ensure high-performance, responsive solutions aligned with business needs.

Technologies: AEM (Sites, Forms), Adobe Edge, Adobe Learning Manager, Java, HTML, CSS, JavaScript, React, Node.js

### Axur (Jan 2023 - Jan 2024)
Software Engineer Intern

Main responsibilities and activities:

- Developed and maintained large-scale systems on the Java platform, focusing primarily on performance and scalability.
- Implemented event-driven microservice architectures, ensuring efficient communication in distributed data processing.
- Automated cloud infrastructure and deployment workflows (AWS, Jenkins), promoting higher reliability and CI/CD best practices.

Technologies: Java, Microservices, Event-driven Architecture, AWS, Jenkins

### Shoppers Drug Mart (UBC Vancouver) (Mid 2019 - Early 2022)

Cashier and Merchandiser

Main responsibilities and activities:

- Provided customer service in a dynamic, multicultural environment, enhancing English fluency and interpersonal communication.

## VOLUNTEER WORK

### UNESP BAJA SAE Team Member (Aug 2016 - Dec 2016)

Assisted in coordinating weekly meetings and tracking activities and deliverables for the engineering team.

### Academic Event Organizer, Langara College

Managed capacity and access compliance (ID verification) in a controlled area during a student festival.

## SKILLS

**Programming Languages & Frameworks:** Java, Python, C++, Bash, HTML, CSS, JavaScript, React, Node.js, Java Spring (Spring Boot)

**Technologies & Tools:** AWS, Docker, Microservices, Event-driven Architecture (RabbitMQ), Relational Databases, Unix, Git, Jenkins, Datadog

**Adobe Ecosystem:** Adobe Experience Manager (AEM Sites, AEM Forms), Adobe Edge, Adobe Learning Manager

**Soft Skills:** Self-management, effective communication, teamwork, and quick adaptation to new technologies

## LANGUAGES

Portuguese (Native)

English (Fluent)

Spanish (Intermediate)
