Henrique Reis Neves

Software Developer

São José dos Campos, São Paulo, Brazil | +55 12 99710-9909 | henriquereisneves@gmail.com | LinkedIn

Professional Summary

Software Developer focused on creating scalable, high-performance backend and full-stack solutions. Solid experience in the Java ecosystem (including Spring Boot), modern front-end technologies (React, Node.js, HTML, CSS, JavaScript), and developing digital platforms using Adobe Experience Manager (AEM). With international experience and a proactive mindset, I aim to contribute to innovative projects involving large-scale systems, event-driven architectures, and cloud technologies.

Technical Skills & Languages

- **Programming Languages & Frameworks:** Java, Python, C++, Bash, HTML, CSS, JavaScript, React, Node.js, Java Spring (Spring Boot).
- **Technologies & Tools:** AWS, Docker, Microservices, Event-driven Architecture (RabbitMQ), Relational Databases, Unix, Git, Jenkins, Datadog.
- **Adobe Ecosystem:** Adobe Experience Manager (AEM Sites, AEM Forms), Adobe Edge, Adobe Learning Manager.
- **Languages:** English (Fluent), Portuguese (Native), and Spanish (Intermediate).
- **Soft Skills:** Self-management, effective communication, teamwork, and quick adaptation to new technologies.

Work Experience

Webjump

Software Developer | Jan 2025 – Present

- Develop and optimize software solutions and digital experiences using Adobe Experience Manager (AEM), Adobe Edge, and Adobe Learning Manager.
- Full-stack development experience implementing and maintaining interactive and responsive applications using Java, HTML, CSS, JavaScript, React, and Node.js.
- Collaborate with cross-functional teams to ensure high-performance, responsive solutions aligned with business needs.

Axur

Software Engineer Intern | Jan 2023 – Jan 2024

- Developed and maintained large-scale systems on the Java platform, focusing primarily on performance and scalability.
- Implemented event-driven microservice architectures, ensuring efficient communication in distributed data processing.
- Automated cloud infrastructure and deployment workflows (AWS, Jenkins), promoting higher reliability and CI/CD best practices.

Shoppers Drug Mart (UBC Vancouver)

Cashier and Merchandiser | Mid 2019 – Early 2022

- Provided customer service in a dynamic, multicultural environment, enhancing English fluency and interpersonal communication.

Education

- **Software Engineering** – Centro Universitário ETEP, São José dos Campos, Brazil (2023 – 2026)
- **Associate of Science Degree in Computer Science** – Langara College, Vancouver BC, Canada (2018 – 2022)
- **Mechanical Engineering** – Universidade Estadual Paulista (UNESP), Guaratinguetá, Brazil (2017 – 2018)

Volunteer Work

- **UNESP BAJA SAE Team Member** (Aug 2016 – Dec 2016): Assisted in coordinating weekly meetings and tracking activities and deliverables for the engineering team.
- **Academic Event Organizer, Langara College:** Managed capacity and access compliance (ID verification) in a controlled area during a student festival.
